

History of Perry County, In Pennsylvania, From The Earliest Settlement To The Present Time.
By Silas Wright. Lancaster, Pa. Wylie & Griest, Printers, Book-binders and Stereotypers. 1873.

Mitchell, Robert, Esq., is still living on the farm where he was raised from a child of three years old. He was one of the first board of county commissioners. He is now in his 90th year, and is able to walk about. He related, when visited in July, 1872, the driving of 37 deer into the Juniata, below the Rope Ferry, in one season, from September to January.
